Accountable to:	Indigo Service Lead
Accountable for:	Indigo Counsellor

Role Summary

LGBT Foundation is an impactful, vibrant charity with a wide portfolio of well-established services and rapidly developing new initiatives aimed at meeting the needs of lesbian, gay, bisexual and trans people.

Indigo Gender Service is setting the national standard for a pioneering, localised and person-centred NHS primary care led partnership that enables trans, non-binary and gender variant people to reach their full potential. Indigo is delivered as a joint venture between LGBT Foundation and gtd healthcare.

The post holder will provide therapy for trans* people at Indigo Gender Service in Greater Manchester, as well as working as the Team Lead for Counselling team and with the Service Lead to develop the service.

As this role focuses on working for a service specifically designed by and for trans and non-binary communities, we believe lived experience of being trans and/or non-binary and having experienced NHS gender transition services will be hugely valuable to the role.

Our values and behaviours are an important part of who we are; we feel it is essential to get the right people to work with us, so these values need to be as important to you as they are to us.

Trans people are the experts of their own experience – our services are trans led, with trans and non-binary people guiding and feeding into them at all levels.

- Support is person centred – we recognise that there are as many ways to be trans and non-binary as there are trans and non-binary people in the world and we tailor our support to meet each person’s individual needs.

- Care is safe and affirmative – we support trans and non-binary people to be well informed about their choices by sharing knowledge, explaining options, promoting health, and trusting people to make decisions that are right for them.
- Knowledge is power – we share our knowledge and best practice with other services, showing leadership and empowering them to better meet the needs of trans communities.
- Care is delivered locally – trans and non-binary people are supported to access the full range of assets in their local communities and to maximise their wellbeing.
- We take a multidisciplinary approach to care – we bring together knowledge and expertise from different fields and backgrounds to ensure our service delivers the highest quality care to trans communities.

We are taking positive action to encourage applications from people of colour (PoC) and other racially minoritised communities, trans*, non-binary, and/or older people (aged 50+), to improve the representation of colleagues from these communities in our staff team.

*Trans is an umbrella & inclusive term used to describe people whose gender identity differs in some way from that which they were assigned at birth; including non-binary people, cross-dressers, and those who partially or incompletely identify with their sex assigned at birth.
